Now Introducing LifeMel Immune Support

Now, New Horizon is proud to introduce Life Mel Immune Support, developed by Zuf Globus to work specifically on the immune system. Long term usage of LifeMel Immune (one teaspoon in the morning and one teaspoon in the evening) can improve the functionality of the immune system and the body's ability to resist infections and disease.

Los Angeles, CA (PRWEB) February 11, 2008 -- New Horizon LLC the exclusive USA distributor for Zuf Globus laboratories in Israel has introduced their latest natural solution for people with a lowered immune system. The immune system is the body's first line of defense in maintaining health, preventing illness, and hastening recovery. Many people experience a weakened immune system due to poor sleep habits, unhealthy diets, post chemotherapy treatment, or other illnesses or medical conditions such as HIV. Also, with age our immune system weakens, leaving us vulnerable to chronic diseases.

Zuf Globus laboratories in Israel has gone beyond the call of duty in helping people improve the quality of their lives with a natural solution. Thirty years of research with an all natural approach of feeding bees special nectars. The controlled formulas fed to the bees are specifically selected natural herbs to create special types of honey purposely targeted to assist the body in coping with various conditions. This 'selected field technology' first led to the development of clinically tested LifeMel Chemo Support.

Now, New Horizon is proud to introduce Life Mel Immune Support, developed by Zuf Globus to work specifically on the immune system. Long term usage of LifeMel Immune (one teaspoon in the morning and one teaspoon in the evening) can improve the functionality of the immune system and the body's ability to resist infections and disease.

With a strong healthy immune response our bodies not only become more resistant to colds, flu, and disease but our quality of life improves. A stronger and fortified immune system can help us resist some illnesses and LifeMel Immune can become the supplemental solution for healthy, strong bodies and immune systems.
